

BAD NEWS

Bad news!

You made your way
You had your run
You had your day in the sun
You made your friends and one by one
Impressing with the things you said you've done

Yeah!

We love you when you're up
We love to hang around
We never get enough
Until the shit goes down

Bad news travels fast
Dirty little secret bit you in the ass
Everybody loves it
Everybody loves to laugh at the bad news
Bad news travels fast

You made their day
They had their fun
They stuck to you like sex and bubblegum
And then a news flash out of the blue
Drags you through the mud and walks all over you

Yeah!

And when we've had enough
We'll run you out of town
We love to string you up
Until we cut you down

Bad news travels fast
Dirty little secret bit you in the ass
Everybody loves it
Everybody loves to laugh at the bad news
Bad news travels fast

Bad news... Bad news... Bad news... Bad news

BAD NEWS

Yeah!

We love to drive the nail

We love to wait around

To see you crash and fail

And kick you when you're down

Bad news travels fast

Dirty little secret bit you in the ass

Everybody loves it

Everybody loves to laugh at the bad news

Bad news...

Bad news travels fast

Dirty little secret bit you in the ass

Everybody loves it

Everybody loves to laugh at the bad news

Bad news travels fast

Bad news travels fast

Bad news...
