

STARLIGHT

If you wanna be anything at all
If you wanna be what you see,
Just put your name down
And if you wanna feel what you think is real
If you wanna pick up a steal
Just put your name down

Anything at all but only when the deed is done, yea it's done
Anything at all we'll turn the moon into the sun

Starlight, I don't even know your name
Starlight, you sure you wanna play my game ?

If you wanna be higher than the call
If you don't believe you can fall
Just put you're name down
And If you wanna feel stronger than steel,
I you wanna get on the wheel
Just put your name down

Anything at all but only when the deed is done, yea it's done
Anything at all we'll turn the moon into the sun, yea yea yea

Starlight, I don't even know your name
Starlight, still you wanna play my game, play my game

Starlight, I don't even know your name
Starlight, now you gonna play my game, go go go
Starlight, I think I'm gonna make you sane, make you sane
Starlight I'll give you everything with shame

Come and stake your claim, golden rain
Get your best champagne
Go back the way you came
Don't even know your name
Go back the way you came
