

GET UP 'N' MOVE ON

I'm grooving on my own, gotta make it all mine
Faster than light and I know I'm alive
Feeling like a race that I just gotta own
Think out a move and I go, go, go, go, go, go

I'm moving on alone cause I'm feeling the drive
Chasing the dream that you rolled on the line
Thought I had a chance, made a fool outta me
And now it's the sound of a mean old me

On the line, all your words and all that jive
Speak your mind, all your words and all your lies
Rolling a face in a bullet proof case
Was I the best that you could find?

Now I wanna know what's on your mind

Why don't you spit it all out? It's on the tip of your tongue
Nothing to say to my face? Get up 'n' move on

Now I'm in the zone and I got it all right
Open my eyes and the day and the night
Only one thing and I gotta agree
The best things in life, no they ain't that free

On the line, all your words and all that jive
Speak your mind, all your words and all of your lies
Rolling a face in a bullet proof case
Was it the best that you could find?

Now I wanna know what's on your mind

Why don't you spit it all out? It's on the tip of your tongue
Nothing to say to my face? C'mon...
Why don't you let it all out? It's on the tip of your tongue
Nothing to say to my face? Get up 'n' move on

Why don't you spit it all out? It's on the tip of your tongue
Nothing to say to my face? C'mon... C'mon...
Why don't you let it all out? Another slip of your tongue
Nothing to say to my face? C'mon
Get up 'n' move on... C'mon... Get up 'n' move on
Get up... Get up... Get up 'n' move on
