

MY OH MY

In my mind, I can't explain
Every time it feels the same
I don't know this world you paint
And I can't bear one more complaint

Let it go, let me breathe, let it sing to me
Let it go, let me breathe, let me live, let me live

My Oh My Oh My... You're gonna make me feel like I can't fly
My Oh My Oh My... No one's gonna stop me till I die
You can paint it black and white but I'll take the up, the down,
Whatever's around
My Oh My Oh My... Let me fly

Empty words you speak in vein
Every time they sound the same
Out of time and out of place
Empty as the black of space

Let it go, let me breathe, let it sing to me
Let it go, let me breathe, let me live, just let me live

My Oh My Oh My... You're gonna make me feel like I can't fly
My Oh My Oh My... No one's gonna stop me till I die
You can paint it black and white but I'll take the up, the down,
Whatever's around
My Oh My Oh My... Let me fly

Let it go, let it go, let it sing to me
Let it go, let me breathe, let me live
Let it go, let me breathe, this is it for me
Let it go, let me breathe, let me sing, let me sing, singing...

My Oh My Oh My... You're gonna make me feel like I can't fly
My Oh My Oh My... No one's gonna stop me till I die
You can paint it black and white but I'll take the up, the down,
Whatever's around
My Oh My Oh My... I'm gonna keep this high
