

WALK ON

I just can't walk away, I'm on a runaway train
Just as clear as the day, I'm falling sure as the rain
And I just can't explain, my motor's gone off the rails
Senses left as they came, I don't remember my name

I just can't look away, I know I'm gonna pay
Walk on, walk on
No, I just can't look away when it's calling my name

Meanest Machine, I'll burn the flame away
Shake in the knee, so hard to tame
Bring on the meat, I'm gonna burn away
Fight this disease, I know I should leave
And walk on, walk on

I just can't walk the line, my only third eye is blind
A defective design has got me losing my mind
An original sin, I got my face in the wind
The obsession within, but I will remember my kin

I just can't look away, I know I'm gonna pay
Walk on, I should walk on
No, I just can't look away when it's calling my name

Meanest Machine, I'll burn the flame away
Shake in the knee, so hard to tame
Bring on the meat, I'm gonna burn away
Fight this disease, I know I should leave
And walk on...

No, I just can't look away when you're calling my name

Meanest Machine, I'll burn the flame away
Shake in the knee, so hard to tame
Bring on the meat, I'm gonna burn away
Fight this disease, I know I should leave
And walk on, walk on
