

## **Gone too far**

You wrapped me 'round your finger  
You got me under your spell  
With every new day's dawning  
I'm one step closer to hell

So let me tell you my story  
And I won't tell you no lies  
I've lost my glimpse of reason  
In the arms of an angel's disguise

And every time you come my way  
Read my lips, the words I say  
For you just crossed the point of no return

**You've gone too far  
Yes you've gone too far  
You can't turn back time  
I draw the line  
'Cuz of the way you are  
You've gone too far**

**You've gone too far  
Yes you've gone too far  
I do know your game  
I won't take the blame  
Any longer now  
You've gone too far**

You were my little princess  
Guess I was too blind too see  
There's something I can't get over  
How could this happen to me

Within your use and abusing  
You cut me down to the bone  
Get someone else to save your lies for  
I'll find the way out on my own

And every time you come my way  
Read my lips, the words I say  
For you just crossed the point of no return

**You've gone too far  
Yes you've gone too far  
You can't turn back time  
I draw the line  
'Cuz of the way you are  
You've gone too far**

**You've gone too far  
Yes you've gone too far  
I do know your game  
I won't take the blame  
Any longer now  
You've gone too far**
