

## STANDING IN THE LIGHT

Can you feel it it's again in the air  
Hell's breaking' loose tonight  
It don't matter where you're comin' from  
If you're black or white

And we're rockin', rockin'  
Against the time  
No other reason to live  
Party, party all night long  
It ain't hard to see,  
We're not

Standin' in the light  
Standin' in the light alone  
We're not  
Standin' in the light  
Standin' in the light alone... standin'

Lots of pretty girls  
Every man's dream  
Some have a look that kills  
Tonight's the night, there's no return,  
Much higher than I thought I could be

Cause we're rockin', rockin'  
Till the morning light  
So much we wanna do  
We feel the heat, the fire inside  
Let it go high on you  
'Cuz we're not

Standin' in the light  
Standin' in the light alone  
We're not  
Standin' in the light  
Standin' in the light alone ... standin'
