

## MEAN STREET ROCKET

I get up, I get down  
Bad luck, for those who mess around  
The streets of fire

Look out, he's around  
Can you feel the shakin' ground  
He's ridin' again  
The streets of fire

No time for compromise at all  
Thunder, lightning, here it comes again

This is the mean street rocket  
This is the mean street rocket  
This is the mean street rocket I like, yeah I like!

It's going hot, everywhere  
Gasoline's in the air  
He's going to light up  
The streets of fire
