

## End of time

Won't somebody tell me  
Is it worth to live a life  
If you're not connected to your brother soul  
It's so easy  
Easy if you open up your mind

You swear it's the bad luck  
That is sneaking up on you  
Change yourself  
And change your point of view  
It's so easy  
Freedom will be working overtime

Take me to the highest of devotion  
Take me where the powers are in line  
Let me find a little piece of heaven  
Till the end of time  
Till the end of time

Floating on the system  
Often we're too blind to see  
Mother nature has the answer, anytime  
'cuz it's easy  
Easy if you really gonna try

Give yourself the freedom  
Don't fall on your knees  
Look at things the other way  
Man, you will be pleased

Time  
Trust your instinct  
Be yourself  
Live the moment  
Before the end of time
