

## NOBODY HOME

Run run run away from what I see  
Television ain't my reality  
I'm sick n' tired of how you want me to be  
Like it or not, I'm gonna do what I please  
And so...

There's nobody home to pick up the phone  
And the number's disconnected  
Just leave me alone 'Cuz whatever you say  
Won't change my life in any other way, no way

Tell me now, tell me now what's the score  
Brain washing games I can't take no more  
Don't gimme that stuff, don't you even try  
To make me believe what in fact is a lie  
You know

There's nobody home to pick up the phone  
The number's disconnected  
While breaking the rule, being nobody's fool  
The request has been rejected  
I'm going insane, there's no one to blame  
I'm in need of comprehension  
Cuz whatever they do , whatever they say  
Won't change my life in any...  
Change my life in any other way, oh no

Breaking the rules, nobody's fool  
Breaking the rules, nobody's fool

Oh, don't tell me no different story  
Covered up in disguise  
Got enough of these words of glory  
It's something I can't deny, deny...

There's nobody home to pick up the phone  
The number's disconnected  
While breaking the rule, being nobody's fool  
The request has been rejected  
I'm going insane, there's no one to blame  
I'm in need of comprehension  
Cuz whatever they do , whatever they say  
Won't change my life in any...  
Change my life in any ...  
Change my life in any other way, no no
