

## What I like

What I like  
is to take the highest road that never ends  
to hold the moment right here in my hands  
yeah, that's what I like  
to feel alive

what I like  
is to know your body's lying next to mine  
to see you smile without a reason why  
yeah, that's what I like, that's what I like

it's something that will never end

soul to soul  
everything here is all under control  
eye to eye  
can you see it  
can you feel it  
what I like

what I like  
is to take you on a journey round the sun  
I wonder if you'd like to come along  
Yeah, well... may be tonight, may be tonight

It's something that will never end  
And when it's right you'll understand

Soul to soul  
Every thing here is all under control  
Eye to eye  
Let me show you  
All I've told you, yeah

Soul to soul  
Everything here is all under control  
Eye to eye  
Can you see it  
Can you feel it  
What I like
