

What about love

Dreaming, bout the things I hear you say
Am I lying to myself
Still trying to push away my pride
You want me to go all the way

But nothing lasts forever
Every story has it's end
I'm scared to love and then
To loose again

What about love , what about tears
What about sorrow and it's fears
Doin' no crime, playing for time
I will follow
What about soul, what about pain
What if I'm just the one to blame
Will you be mine, giving me rhyme
Or gone tomorrow
It's driving me insane

Voices, I can hear them deep inside
Trying hard to understand
Are you heaven sent, is it you I'm waiting for
And there you are right by my side
