

Every time I die

Inside my soul I'm flying, never get enough
I died a million times just waiting your love
Like the rolling thunder, shaking up the sky
I can't keep this under, living out a lie

Oh... Every time you're next to me
Oh... I'm every time in ecstasy
Oh... I just wanna cry
Oh... Cause every time I die
Every time I die, I die for you

Tell me now or never, look me in the eye
Will this be forever? Is it worth the fight?
Taking all my chances, everything I own
Despite my circumstances, a risk I take alone

Oh... Every time you're next to me
Oh... I'm every time in ecstasy
Oh... I just wanna cry
Oh... Cause every time I die
Every time I die, I die for you, I die for you

Can't you read between the lines
In between lines I bleed
Can't you read between your lies
In between your lies I feed
You don't really understand
You don't really know
You don't really care at all
But I'm gotta let you know

Oh... Every time you're next to me
Oh... I'm every time in ecstasy
Oh... I just wanna cry
Oh... Cause every time I die
Every time I die, I die for you, I die for you
Every time I die, I die for you
Every time I die... Every time I die...
I die for you! I die for you! I die for you!
