

STAY WITH ME

And, every time I leave a feather from my soul
This world of mine deceives, another one it stole
Every one of these pieces of my heart
Do with as you please, as you have from the start

Would you stay with me? Would you stay with me?
Would you keep the sky from falling?
Would you take me if I changed?
Would you stay with me? Would you stay with me?
Would you keep me if I changed?
If I could be somebody else, would you stay with me?

Every time that I believe your love will surely come
I forget to slowly breathe, the something I've become
Every one of these words are from within
Hear them as they freeze, but the ice is getting thin

Would you stay with me? Would you stay with me?
Would you keep the sky from falling?
Would you take me if I changed?
Would you stay with me? Would you stay with me?
Would you keep me if I changed?
If I could be somebody else, would you stay with me?
If I could be somebody else...

Awake with my eyes closed, and I can't feel the ground
Take all these pieces, I can't put them back together now

Stay with me... Would you stay with me?
Would you keep the sky from falling?
Would you take me if I changed?
Would you stay, stay, if I could be somebody else?
Would you stay, would you stay with me?
Would you keep me if I changed?
If I could be somebody else, would you stay with me?

And, every time I leave pieces of my heart
You take them as you please, as you have from the start
